AS367

Sirena elettronica multitono completa di lampeggiante, con base a profilo alto.

General

The AS367 is a general purpose electronic sounder and LED beacon for fire alarm applications. Which features a special base containing all wiring connections and allow for easy removal/placement of the sounder/beacon.

Easy and Fast Installation

The AS367 alarm sounder/beacon allows faster installation and maintenance thanks to an innovative mounting base. Dispensing with the need for locking screws, these sounders use a deep base version of the TimeSaver¿ base from the 630 series detectors. Heads are simply locked onto the base with a ¿twist and click¿ action, allowing fitting or removal at any time because the base is the only component that needs to be wired. As the cabling requirement is reduced, commissioning time and costs are naturally reduced as well.

Efficient and versatile

The AS367 provide high sound output at a low current, thus reducing power requirements and system cost. The AS367 sounder/beacon is supplied with a volume control as standard, allowing final audio adjustments to be made during installation.

With a choice of 32 different tones (see tones table in manual), which are switch selectable, the required tone can be selected during installation.

The mechanism for locking the sounder/beacon to the base, can be activated if required. Once activated, a special tool is required to remove the sounder from the base.

The AS367 sounder/beacon utilises a full faced translucent sounder case, giving a much larger lens area and a greater spread of light.

Dettagli

- Potenza sonora elevata
- Consumi ridotti da 4 a 50 mA a seconda del tipo di tono selezionato
- 32 differenti toni selezionabili
- Sincronizzazione automatica
- Trimmer per la regolazione del volume di suonata
- Dispositivo di bloccaggio
- Base di fissaggio a profilo alto
- Ampio range di alimentazione da 17 a 60 Vcc
- Collegamenti separati per sirena e lampeggiante
- Certificazione EN54

AS367

Sirena elettronica multitono completa di lampeggiante, con base a profilo alto.

Specifiche tecniche

Physical

Colour	Red
Material	High impact polycarbonate

Environmental

Environment	Indoor, Outdoor

Regulatory

Certification	EN54-3

Prodotti compatibili

Categoria	Riferimento	Descrizione
Notification device	AS36RIM	Targa di supporto per avvisatori ottico acustici con pittogramma "FIRE"
