# BS127N-A

## Sealed lead-acid battery, 12 V, 7.2 Ah, for Intrusion/ Video/Access control applications

### Overview

Used for emergency exit lights, warning signs, illumination, or security systems, it allows uninterrupted operations for a certain amount of time in case of power is down.

### Application

This battery can be used for cyclic and standby applications as it has been designed to be more efficient, safer and more environmental friendly.

### Details

- Maintenance free
- Wide operating temperature range
- Usable and rechargeable in any position
- Low self-discharge and long service life
- Leakproof construction
- High discharge rate capacity
- Can be used for cyclic and standby applications
- High energy density
